## CameraAce - Create better photo collection

CameraAce was built upon the fundamental idea that photography should be fun and easy. We shouldn't have to worry about constantly adding filters and frames to every photo, and more importantly, it should be easy to keep track of our photos. Photos aren't something that we just post to Facebook once and then forget about the next day.

+ Developer : TecAce | + Price Type : Free

CameraAce accomplishes these goals with its Camera Workbench user interface.

The Workbench UI consists of up to 10 different 'cameras,' each with its own unique Photography theme (Patent Pending).

The user can edit each camera's photography theme to suit their needs.

For example if you enjoy taking photos of what you eat, you can create a camera titled "Food," that adds a HDR filter, a Polaroid frame, and saves to a folder called "Food."

Now whenever you want to capture a memory of a beautiful dish, simply fire up the Cuisine camera and your preset photography theme will be applied.

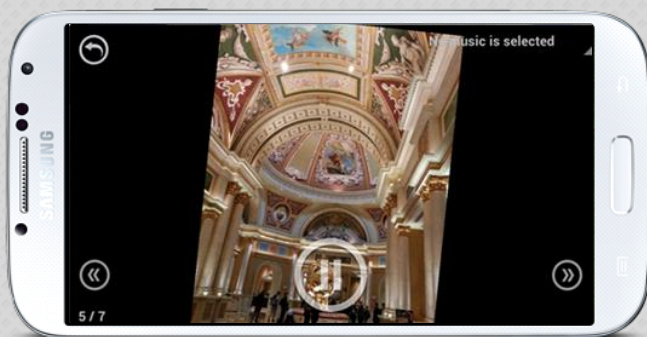

No need to individually edit photos and move them to the appropriate folder.

In addition to the innovative Camera Workbench interface, CameraAce has a powerful suite of photo editing tools.

With CameraAce's editing tools, users can crop, rotate and flip photos.

In drawing mode, users can artfully decorate their photos with notes and sketches, or even add text and photos.

Typical user photo galleries end up becoming a mish-mash of everything under the sun, but CameraAce organizes your photos into tidy collections as you shoot them, which can then be enjoyed in slideshow mode.

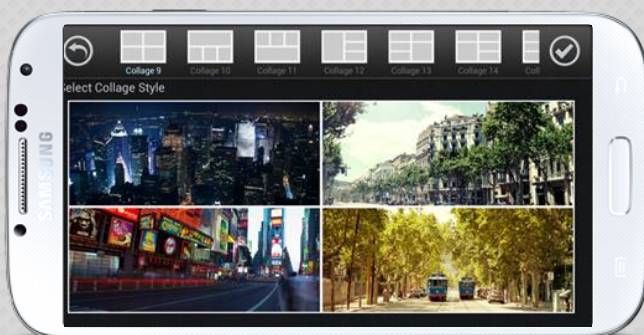

Each collection of photos in your Camera Workbench can be viewed as a beautiful slideshow with background music of your choice (based on your photography theme).

Rounding out CameraAce's photo editing suite is the Collage Editor.

Combining multiple photos into one composition is an exciting way to bring life to your photos.

Tell a story by combining up to 6 photos with one of 22 different collage frames.

You can crop and move each pane in the collage, and then use the rest of the photo editing tools to personalize your collage with effects, frames and drawings.

With CameraAce we sought out to unify the many different features of photo editing applications into one simple platform.

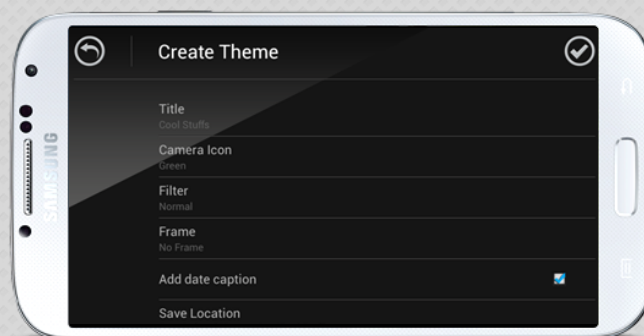

With the Camera Workbench UI, we wanted to make CameraAce an easy to use tool for transforming ordinary mobile photos into a collection of work that is greater than the sum of its parts.

We hope that CameraAce will allow you to harness your creativity and share it with the world.

As we look towards the future, there are even more features and enhancements we are working on. We are expanding the power of photography themes by including even more settings such as ISO and white balance.

These settings can then be shared to other CameraAce users who want to try your theme.

We are also working on allowing users to share entire slideshows with their friends.

## Fast Burst Camera

+ Language : English, Korean, Japanese, German, Danish  
+ Developer : Spritefish | + Price Type : Paid

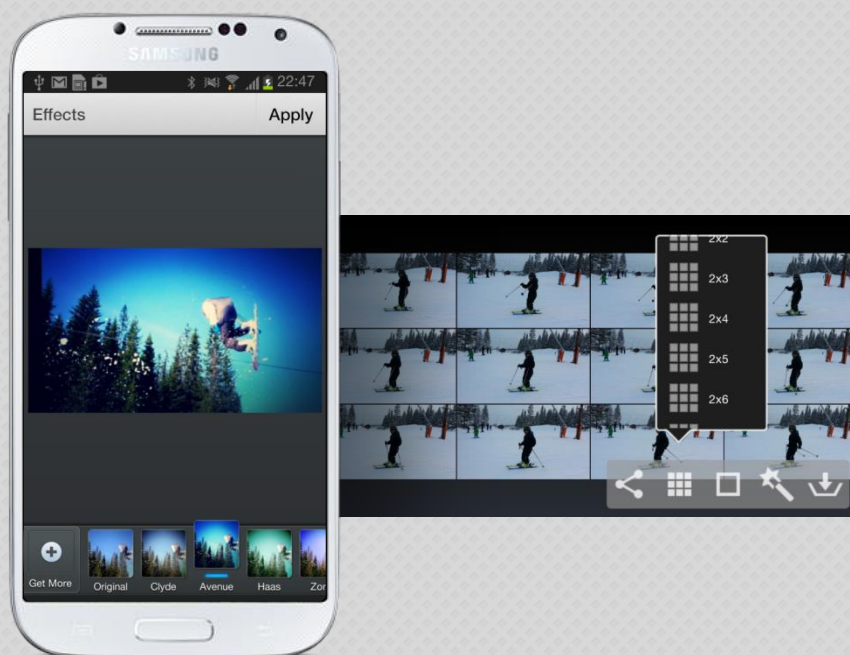

Fast Burst Camera will allow the user to shoot up to 30 photos per second.

No other camera app will shoot this fast.

The normal burst mode will shoot 4-5 photos per second, so this app is much faster.

Use the different shoot modes, including pre-shot and motion trigger, to get photos that are normally impossible to get. Create collages and GIF animations from your photo sets.

Edit and modify the photos with built-in editor – and add high-quality effect filters, text and more.  
Easily manage your photos with the built-in photo manager.

## Wondershare PowerCam

PowerCam is a powerful yet easy-to-use camera app.

All the tools that you need to capture and share fantastic photos can be easily found right here in this elegant and easy-to-master Android app.

+ Age: For All ages

+ Language: Chinese Simplified, Chinese Traditional, English, Korean, Japanese, German, French, Greek, Polish, Poland, Spanish, Italian, Hungarian

+ Developer : Wondershare Software | + Price Type : Free

## Features

### Capture Photos with Real-time Effects

Add real-time effects to photos while shooting.

Simply switch between 36 effects like Old Photo, Lomo Cyan, for inspiration or simply for fun.

### Panorama

Snap away in a semi-circle and the app will automatically combine your shots seamlessly into a great looking landscape.

Also, add all those great effects to your panorama photos in real time, too!

### Color Splash

Keep a bit of color against black and white, or vice versa. Tap to switch between different color splash shooting modes and the app will do the rest.

### Tilt-Shift

Choose between Linear Mode for landscapes and Polar Mode for round objects.

This technique plays with the focus of the lens in order to make your subject look like miniature.

### Time Lapse

Intelligently recognize faces and start counting down - so you can just smile and look good.

### Smile Shot

Detect you smile and capture the photo automatically.

This is the coolest and the easiest way for you to capture a portrait photo.

### Touch

Tab on the viewfinder area to capture a photo directly.

## Anti-Shaking

Stand on shaky and wanna capture great photo?  
That's what Anti-Shaking will help you.

## Multiple options to create awesome collage

- Three ways to create collage: Template, Free and Join.
- Select suitable grid from plenty of templates.
- Set different ratio for photo.
- Change among lots of backgrounds and layouts.
- Adjust edge distance and corners.

## Incredibly powerful toolsets for editing

- Tap to enhance photo in seconds
- Transform a soulless picture into a work of art with over 60+ effects and frames
- Tap once to beautify portrait with Face Beauty
- Crop or rotate your photo any way you like, and adjust Brightness/Contrast/Saturation/Sharpness to fine tune to your liking.

## Share Almost Anywhere

Share single one or several photos in batch to Facebook, Twitter, Tumblr, etc.

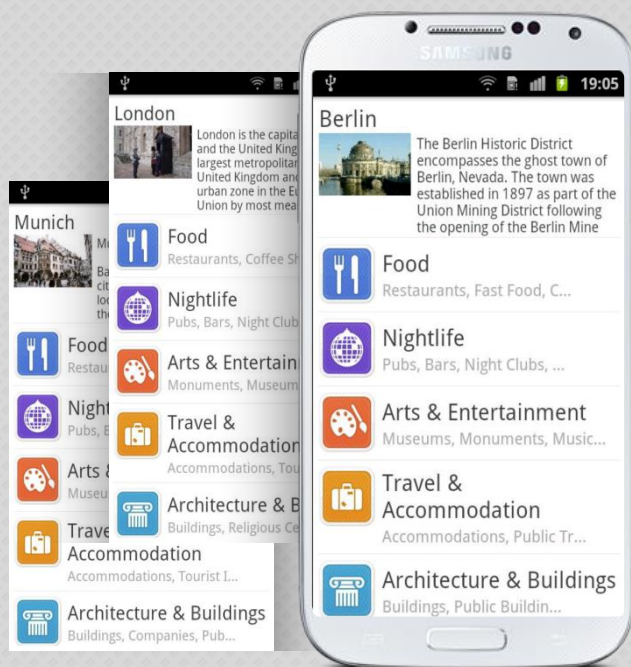

## 2Go Series (Berlin, London, Munich, Venice, San Diego)

Offline Map with City Guide · 630 articles, 10.000 POI, 5.500 · find your location with passive GPS · no data-roaming, no wifi required · perfect for travelers!

+ Developer : Ulomn GmbH | + Price Type : Free

**Guides 2Go are available for :** Paris, New York, London, Barcelona, Rome, Berlin, Amsterdam, Prague, Munich, Vienna, Venice, and Chicago

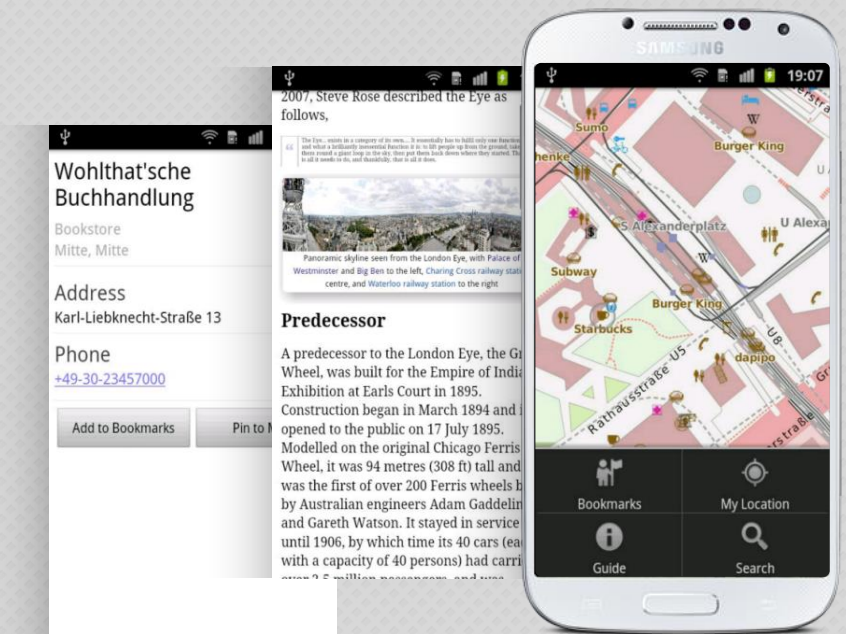

Getting around and informed in City of the world has never been so easy and so much fun!

Articles and POI are conveniently arranged in groups like Eat+Drink, Nightlife, History+People, Geography, Transportation and other.

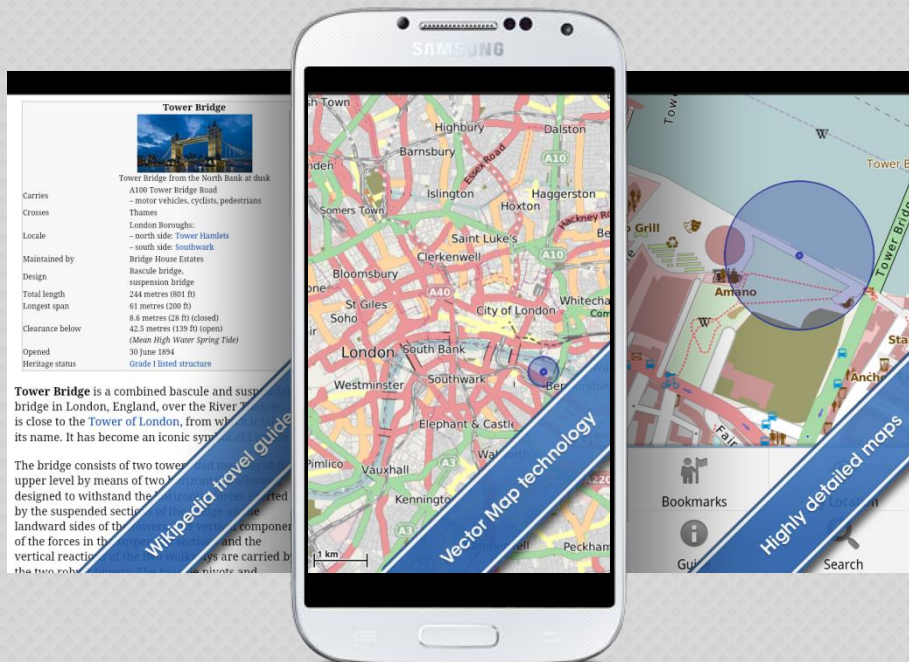

## Features

- No WiFi, Internet or Roaming needed
- Zoomable map of the whole city
- Search for articles and POI
- GPS location and nearby POI

2Go Series takes information from Wikipedia and OpenStreetMap offline.

It presents them as maps, POI and articles, perfectly formatted and optimized for viewing on your mobile and tablet.

Get the App and enjoy your time in City of the world!

Stay up to date and get promos:

## TuneIn Radio Pro

TuneIn lets people listen to music, sports and news from around the world.

The TuneIn Service helps you navigate more than 80,000 live radio stations & over 2 million on-demand programs to give you quick access to the content that is most relevant for you.

+ Developer : TuneIn | + Price Type : Paid

**TuneIn** allows you to listen to the world

### Local

- One-touch local radio dial, anywhere in the world
- Local coverage for radio Stations from over 230 countries, 100 languages

### Music

- Search for artists and songs playing right now
- 24/7 commercial free genre stations

CLASSIC 

### Talk

- Up-to-the-minute news from around the world
- Over 2 million on-demand talk programs

### Sports

- Live play-by-play for major sports, including English Premier League, NFL, and MLB Playoffs

## TuneIn Is Everywhere

### Connected Home

Over 200 implementations on CE devices, TVs, and PCs

### All smartphones and tablets

Leading app across the world: 267% YTY growth in usage

### Connected Automobiles

Global Leader: Winner of Best Telematics Content Aggregator 2012

## Features

- One-click local radio dial
- One-touch personalization
- Find similar stations feature
- Recommended feature
- Search stations by favorite artist or song
- 22 networks of music-only stations
- Sync presets between any TuneIn-enabled device

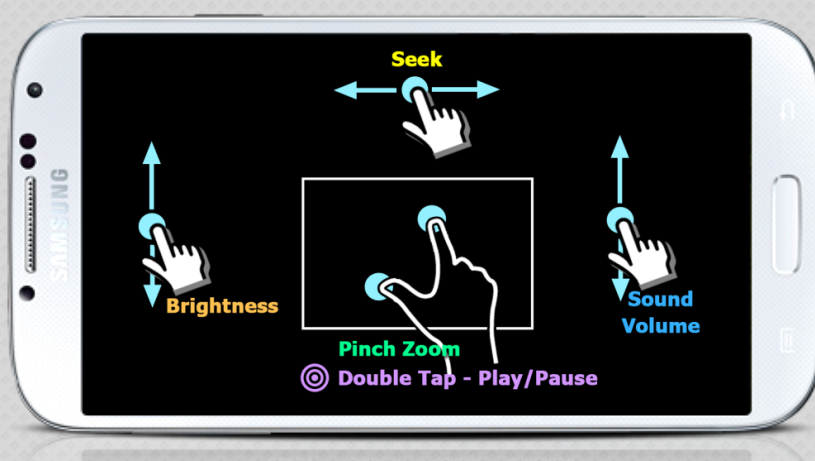

## MX Player

MX Player is a video player offering convenient U X and excellent playback performance for the Android environment. MX Player can play most video content including most video files that cannot be played in the basic video player. This video player features numerous options to optimize playback performance and user convenience.

+ Languages: English, Korean, Russian, Japanese, German, French, Dutch, Polish, Indonesian, Italian, Bulgarian, Chinese (traditional, simplified), Czech, Hungarian, Portuguese, Spanish, Greek, Romanian, Turkish, Ukrainian, Danish, Hebrew, Slovakian, Norwegian, Arabic, Slovenian, Persian, Serbian, Swedish, Mongolian, Georgian, Vietnamese, Latvian, Finnish, Lithuanian, Kurdish

+ Age: All ages

+ Developer : J2 Interactive | + Price Type : Free

### Key Features

#### UX Performance

Videos saved to the device can be searched immediately with the volume, brightness and playback performance able to be controlled easily during a file playback. In addition, MX Player offers a child safety lock, preventing children from unlocking the device.

#### Hardware Acceleration

Using MX Player, hardware acceleration can be applied to more types of video files so higher resolution video files can be played with a smaller battery capacity.

#### Multi-core Decoding

MX Player plays content using several cores simultaneously. CPU core usability can therefore be maximized.

#### Powerful Subtitle Support

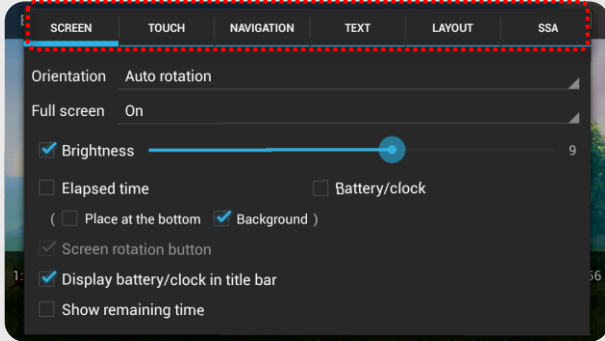

MX Player supports most subtitle formats and enables perfect subtitle scripting.

#### Volume Boost

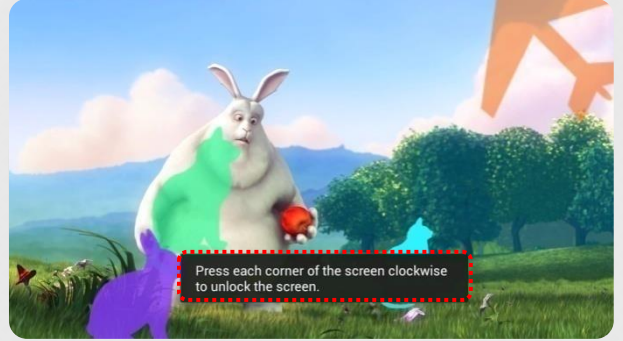

MX Player volume can be increased up to 200%.

#### Supporting a Range of Devices

MX Player supports most of the Android devices available. The same functions can be used in any device.

- Full undo/redo
- Draw in portrait or landscape mode
- Set picture orientation
- Online gallery lets you share your pictures with friends, family and the world

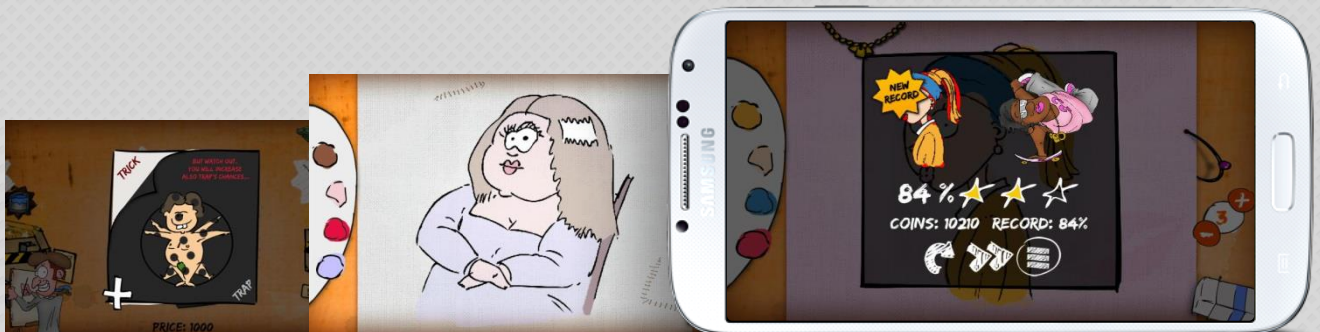

## Fastest Painter

The goal of the game is to help Johnny Brush drawing the most famous painting in the world that bosses tell him to paint.

+ Developer : Invenktion | + Price Type : Free

There is a boss for each section and each boss have about 12 paintings to draw. You have to draw the paintings as precisely as possible, with very little time available. In order to do this, you will have the opportunity to take advantage of some tricks provided by bosses, but for each trick there is also a trap. Tricks can be "color bomb", "magic edges" and so on. Traps can be "ink", "color deletion" and so on.

There is a sophisticated computer vision algorithm that check how well you have draw the picture. If you are able to paint more than 90% of the paintings you obtain 3 stars, which is the highest rating. If you make 3 star for each section painting, you unlock bonus paintings that are more difficult to draw. There is also a "Training" section where you can draw quietly without the time countdown.

Developer website : [www.invenktion.com](http://www.invenktion.com)

Video of the game : <http://www.youtube.com/watch?v=PaAgxxZmQXE>

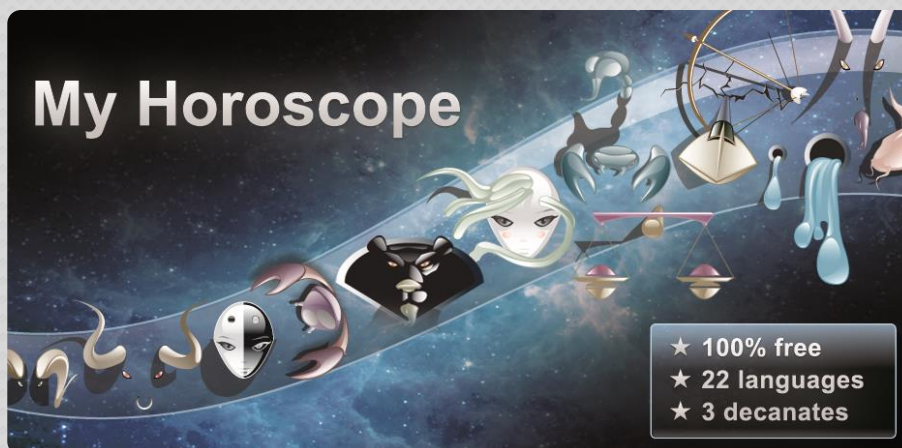

## My Horoscope

Read your daily horoscope prepared by an astrology expert with over 15 years of experience.

## Pregnancy +

Pregnancy by Health & Parenting Ltd. is the most popular and complete pregnancy app for expecting parents.

Expectant mums and dads can now enjoy the most complete, independent, pregnancy app, 'Pregnancy' on their Samsung devices, created by Health & Parenting.

'Pregnancy' was created by a team of healthcare professionals at Health & Parenting Ltd.

This powerful, personalised app features beautiful full colour, high resolution images which allow Expectant parents to follow their baby's Development on a daily basis.

Your pregnancy is visualised like you've never seen it before!

+ Developer : Health & Parenting Ltd. | + Price Type : Paid

## These are some of the features you get in Pregnancy

- Daily info on your pregnancy
- Weight tracker
- Baby shopping list
- Contraction counter
- HD belly and fetal pictures
- Preparing for labour
- Baby names list
- Doctor's notes
- Health / Diet / Exercise / Medical info
- Birth plan / hospital bag
- Kick counter

It is also one of the few truly independent apps meaning that users can count on un-biased, Straight-forward advice. No sponsorship or advertising also means that the screens remain uncluttered and allows for content and editorial freedom. Pregnancy is the most widely recommended app by health care professionals and obstetricians.

Innovative features include a kick counter to enable mums to track their baby's movements, a contraction counter, a built-in organiser to help parents plan their medical appointments, plus much more.

Its unique user interface can be personalised to mums, dads and even grandparents so that they can track the progress of the latest addition to the family.

No other pregnancy app provides such a complete guide, this engaging app encourages expecting parents to return daily to receive new information tailored to their stage in pregnancy.

Available for free as a lite edition for the first trimester of pregnancy, or \$2.99 for the full version, Pregnancy is a 'must-have' pregnancy essential.

Info written for user Congratulations!

You just found out that you're pregnant and you're thrilled! You can't wait to experience the progression of that beautiful little baby growing inside of you.

What will you feel like as you get further into your pregnancy, how big is the baby now, what foods should you avoid? These and other questions flash through your mind but where do you find all the answers? With the 'pregnancy' App by Health & Parenting, you can find all the exciting details and important facts you need in one app.

Now on your Samsung device!

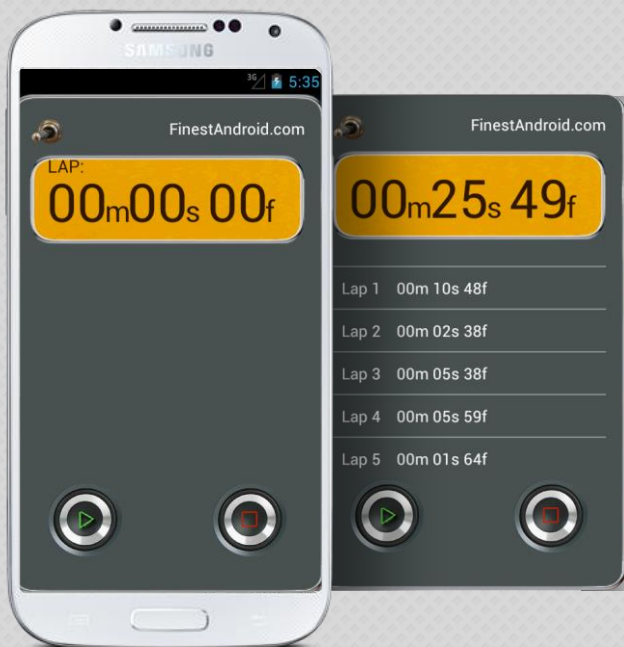

## Winner Stopwatch

Perfect for every timing solution – sports, games, motor sport events, work, and trainings, was designed specially to never loose time (even a millisecond).

+ Language : English

+ Developer : Aleksandar Petrov | + Price Type : Free

Winner Stopwatch is accurate and simple to use free application.

The application's code was designed to give the most accurate time when the button was touched.

Winner Stopwatch can display lap times in a list and also has a switch button to show total time or the current lap time on the main screen. This is very useful feature for a motor sport lap timing.

We have added short and nice button sounds to give you a notice when you touch the stopwatch buttons.

One other cool feature is the tablet layout. Winner Stopwatch has a clever UI that is also very useful on a tablet device and is not taking your whole screen.

"Suitable for daily office work, meetings, entertainment, etc., on the occasions you need help with the time, can be as little as less than 1 second exact length, to a few hours time. All operations are available through the stopwatch software interface with two buttons, complete and easy to use at a glance."

- From "[http://ko.appszoom.com/android\\_applications/tools/happy-stopwatch\\_fjvy.html](http://ko.appszoom.com/android_applications/tools/happy-stopwatch_fjvy.html)"

## Features Winner Stopwatch version 1.10

- Reacts on button touch (not on press) to be the most accurate stopwatch.
- Clever logic to measure the time on the exact touch so you don't loose a millisecond!
- Sounds and heptic feedback.
- Switch button to display TOTAL time or just the LAP time
- List with the lap times.
- Most tablet friendly UI

## AngelLock, a multi-background pictorial encryption screen lock

AngelLock II is a lock screen application to lock a smart phone with 100% freestyle pattern encryption. 'AngelLock,' a freestyle pattern encryption lock screen implemented for the first time in the world, finally begins its new season with the upgraded AngelLock II. It is free, but you can access all functions without limits. "Do you still lock your phone with a pattern? I do it freestyle." The world's first 100% freestyle pattern encryption lock screen, AngelLock II is a 100% freestyle pictorial encryption lock screen application where you can set an encryption as you please on a picture background you have selected. AngelLock II provides both the 'lock screen' function in the first smart phone screen and the individual application lock function.

+ Developer : INUNI | + Price Type : Free

### Free Style Pattern Encryption

Draw a 100% freestyle encryption pattern on the lock screen background you've selected. Both drag and tap encryption are supported with no limit to the number of encryptions set.

Create an encryption by tapping twice

Drag encryption

#### Ex.1) Create an encryption by tapping the screen twice

Press a point on atop a picture you've selected. You can create an encryption to lock a smart phone by pressing points only you know.

(To create a tap encryption, tap twice or more for optimal security.)

#### Ex. 2) Drag encryption

Draw a pattern at a specific point on the background to create a drag encryption. You can create a more powerful encryption by combining both tapping and dragging.

Pressing the same point several times or overlapping drawings sets an encryption. Try creating a simple, yet powerful encryption by experimenting with different techniques.

Freestyle pattern is a powerful touch encryption tool that stores an unlimited number of encryptions, and is more versatile than conventional passwords or pattern encryptions.

Create a powerful encryption with a simple two or three-step touch control. AngelLock lets you to create several encryptions and use them concurrently. Each time the smart phone screen is turned on, the lock screen picture changes, and so does the encryption. AngelLock is called the world's first pictorial multi-encryption tool.

Virtually anyone can enjoy the amazing experience of creating up to ten or even more encryptions. Most AngelLock users use two or more lock screen encryptions at once!

If you use multiple encryptions, you also need organized management.  
Try the encryption setting menu of AngelLock II.

## Other Key Features

### ·Quick Draw

AngelLock II offers a Quick Draw feature that lets you to execute an application without unlocking your smart phone. Conveniently use the camera, calculator, flash and dictionary functions as well as frequently used text, call, SNS, and search functions with Quick Draw. Now you can enjoy your own mobile UX.

### ·Shortcut to Notifications

You can directly access missed call and text notifications by opening the lock screen for a fixed period of time after they are issued.

### ·Lock Application

You can internally lock individual applications that require powerful security. You no longer need to worry about letting someone borrow your phone.

### ·Master Key

Open the lock screen using a preset master key password without using pictorial encryption.  
Use this feature when you're worried about the risk of encryption exposure.

## Upgrade Information for the Latest AngelLock II

AngelLock II begins its new rollout in April 2013.

AngelLock II has been innovatively changed in structure and features to be mounted more conveniently and safely in your smart phone.

AngelLock II is not compatible with the existing AngelLock version. Please delete the old version before installing AngelLock II.

## English Thesaurus

What's unique about Word Magic English Thesaurus? It's a lexicological discovery!

+ Developer : Word Magic software | + Price Type : Paid

### Firstly

It is practically the ONLY thesaurus in existence where you can enter compound words such as idiomatic expressions, phrasal verbs, phrasal nouns and sayings, and find synonyms for them! Even proverbs have their synonyms!

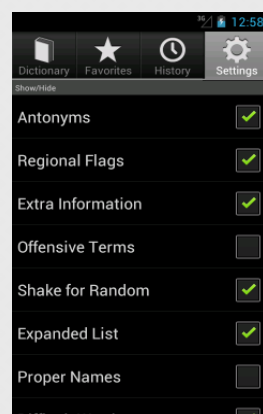

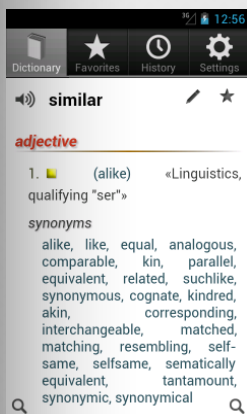

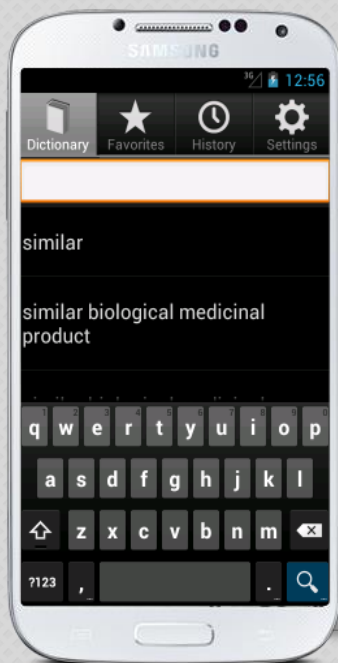

You will be surprised to find synonyms for exclamations, prepositional and adverbial phrases not found in any other thesaurus, plus you can replace slang, vulgar or colloquial words with more formal ones. And vice versa.

### Secondly

Synonyms are neatly arranged grammatically by part of speech, and semantically separated by context within each grammatical classification.

Last but not least: Its lexicological scope and size make this dictionary absolutely unique in the world of dictionaries with over 228,000 search entries providing a total of 1,141,000 synonyms and 280,000 antonyms.

Its huge database is so extensive that it would require no less than twenty 1000-page books in print to include it all.

## Features

- Pronunciation using Premium quality American or British voices
- Mark Favorites
- Search History
- Handwritten notes added by User
- Ideal for learning English as a second language
- A must-have for professional writers or editors
- Social Media connections: The perfect tool for tweeting and emailing.
- Customizable fonts, colors and themes
- Frequent Updates with added functionality and many more words
- Embedded Tutorial
- Plurals and conjugations are also valid entries
- Fuzzy Search

---

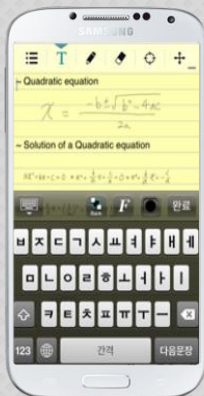

The side-by-side presentation of the alphabetical search list on one side and the results screen on the other, plus the astounding amount of words available, help make this app worthy of its name's word origin: Treasure, in Latin.

## LOLNote

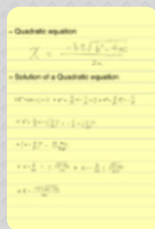

+ Developer : LOLLOL | + Price Type : Free

## Features

### Basic Notepad

Basic time-based notepad capability

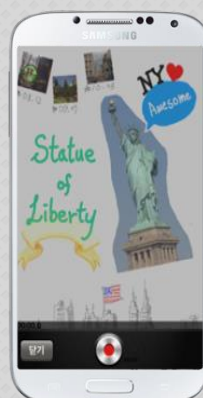

### Photo Editing

Attach, cut out, and edit photos.

### Individual Unit Editing

Select individual units for editing.

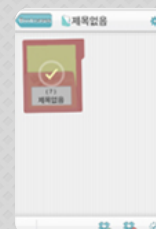

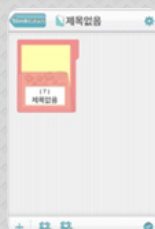

### Attach Map/ Recording

Map and recording features are available to enrich your notes.

Soonr Workplace harnesses the power of your Samsung device so you can Do More Business!

## The Video Cookbook

The Video Cookbook offers a plentiful supply of visually appealing and delicious recipes.

+ Developer : Futura Group Pty Ltd | + Price Type : Paid

### Description

Access over 180 easy to follow video recipes on your Samsung Tablet or Phone.

Created by current industry professionals with years of experience training chefs in licensed culinary schools around the globe.

Now you can learn the same exciting recipes? but at a fraction of the cost!

Perfect for chefs, home cooks, foodies and students on the go.

Add your recipes to your shopping list, pick up your supplies and start cooking!

“The Video Cookbook is meant to help you discover and understand the intricacies of cooking. The question here however, is whether or not this app can make you into a cooking expert or simply provide you with some basic recipes.

The Video Cookbook is a cooking guide of sorts that will not only give you some good video recipes, but it will also help you keep track of ingredients needed to prepare dishes, provide you with a glossary of terms used in the world of cuisine, and hold your hand throughout your experimentation in the kitchen.

The Video Cookbook is an app for a very select audience.

If you want to learn how to cook, you will probably want to spend a bit of money elsewhere.

If you want to practice with the recipes in this app, go ahead, but with YouTube at your disposal, it is kind of hard to find a real incentive to pay for this app.”

From : “<http://www.technocular.com/tech-news/cook-up-something-good-with-the-video-cookbook/>”

## What's Included

- 180 recipes complete with professional HD videos and photography
- Choice between USA/Imperial or International/Metric cookery measurements All new Smart Steps. You won't lose where you're up to with our easy-to-read smart steps that highlight the step you are up to
- Ability to change the serves to any number you like
- Add ingredients to a shopping list

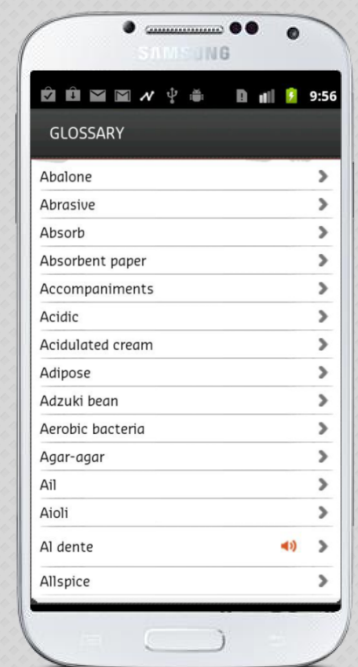

## Save your favourites

- Glossary of terms with audio for difficult to pronounce terms
  - Ability to delete individual videos from your device to save room.
- Don't worry ? you can download them again any time you like

## About Futura Group

Futura has a reputation for providing the highest quality resources for chefs and culinary students around the world.

With years of experience and a focus on professionalism and innovation, you can be assured you are learning the correct techniques every time.

## Shopping List

- This feature allows you to create a very detailed list of ingredients that you'll need to prepare whatever dish you add to it

## Glossary

- This is the coolest feature of The Video Cookbook. The glossary, as you may have guessed, displays many terms used in the kitchen; you know, things like: al dente, boudin, bruschetta, Frappé, etc.

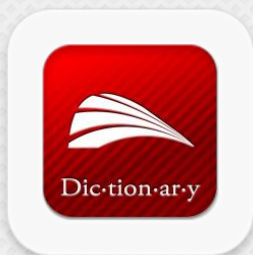

## Download all videos at once

- This isn't really a feature, but it is good to mention that you can download all the videos with one click.

From : "<http://www.technocular.com/tech-news/cook-up-something-good-with-the-video-cookbook/>"

---

**Note:** This app is free to download but charges for additional recipe packs.

## Franklin Planner Activity

Franklin Planner is the most loved organizer in the world. Experience Franklin Planner's superb schedule management system and philosophy.

- + Full Version: KRW 4,500 (US\$ 3.99)
- + Trial Version: Free for 21 days
- + Developer : webplan | + Price Type : Paid

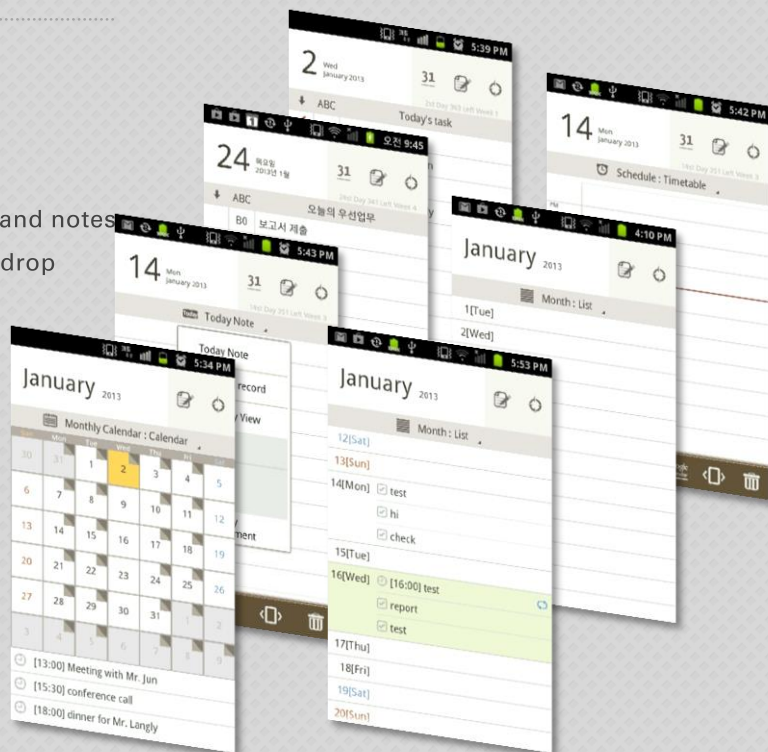

**Franklin Planner Activity** was created focused on execution, to provide assistance for a wide range of users with its substantial planner features.

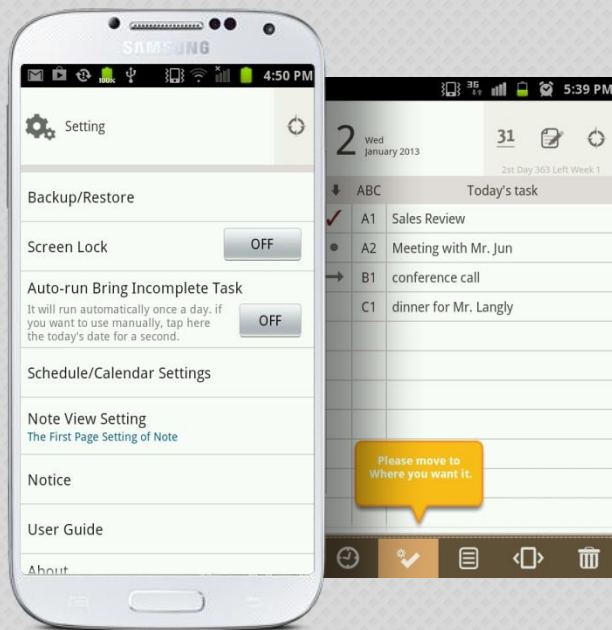

Following the discover – plan – execute paradigm, the planner was created with a focus on execute. Franklin Planner Activity comprises [Today's Tasks], [Schedule], [Master Tasks], [Notes], [Monthly Schedule], [Integration Search], [Mission Statement], [Quotes], [Web Backup], and [Password Setting] menus.

Franklin Planner Activity provides optimal convenience in schedule management by offering additional features, such as load past tasks and folder management for notes.

### Key Features

- Monthly schedule, today's tasks, schedule, and notes
- Reflect changes in schedule with drag and drop
- Load incomplete tasks
- Folder management for notes
- Linked to Google Calendar
- Share through SMS/Twitter/e-mail
- Widget (for Android)
- Web storage (backup)
- Password lock
- Integration search
- Repeat/ notice function

Franklin Planner Activity version was developed with the goal of offering a wider range of selections to users in the smart phone environment based on experience in the digital field.

The Planner Application will develop and introduce additional kits containing goal management/ weekly compass/ financial management/ sharing features so users can selectively add them as plug-ins to the current Franklin Planner Activity version.

In addition, Planner Application aims to complete PC & web platforms with a web service and PC software smart phone edition (Franklin Planner Windows Software for Mobile). At present, synchronization service between Franklin Planner Activity for Android and PC software is available.

Franklin Planner is an effective time management tool allowing users to design their lives by adding their critical needs according to their individual values. Franklin Planner is used by more than 24 million productive innovators world-wide.

Web Plan helps its users achieve success by continuously implementing the Franklin Planner system in a variety of environments in line with the trends of the digital era.

## Star Chart

The best selling smart phone astronomy app comes to Android!

Now you can have a virtual star chart in your pocket! Look through the eyes of your Android device to see a virtual window into the whole visible universe.

All you have to do is point your Android device at the sky and Star Chart will tell you exactly what you are looking at.

+ Developer : Escapist Games Limited | + Price Type : Paid

Star Chart is the world's top education & augmented reality star gazing and astronomy app.

Your device becomes a window into the observable universe as Star Chart shows you the planets, stars, constellations and nebula you hold it up against. Star Chart has become the de-facto application for users of all ages to explore and discover the wonders of the night sky and solar system.

Using state of the art GPS technology, an accurate 3D universe, and all of the latest high tech functionality, Star Chart calculates – in real time - the current location of every star, planet and moon visible from Earth and shows you precisely where they are; even in broad daylight!

With both a SkyView mode for viewing the night sky from Earth and an Explore mode for travelling around the solar system, Star Chart will let you learn about astronomy and cosmology at your own pace, showing you in magnificent beauty the universe around you. You can explore any of over 125 thousand stars, the planets and their moons, the full set of night sky constellations and the entire Messier Catalogue of deep sky objects.

\* Want to know what that bright star is called?

↳ Point your device at it – you might just find out it's a planet!

\* Want to know what the night sky looks like to people on the other side of the earth?

↳ Well just point your device down!

\* Want to know where your star sign is in the sky?

↳ Star Chart will tell you all this and more.

- 
- Star Chart targets users of all ages from pre-schoolers to adults who want to self-teach or share their knowledge with their children or loved ones.
  - Star Chart is available in eight languages  
(English, French, Italian, German, Spanish, Korean, Japanese & Simplified Chinese)

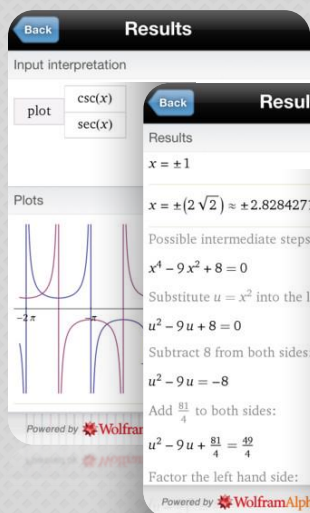

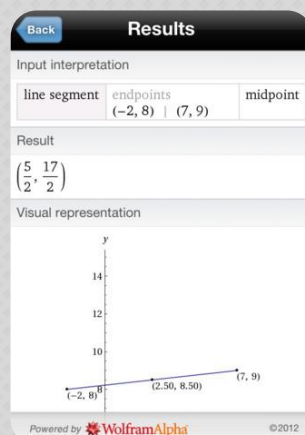

## Wolfram Series

## BAND

"Are you okay with accepting a facebook friend request from fussy boss or scolding mom?"

"After becoming friends with them, can you update your status just like before?"

"Do you keep in mind that you should change privacy settings when upload private photos and videos?"

We understand why you are hesitating when this happens. It is almost impossible to share your private experiences or candid talks. within other open social services.

This is where LINE BAND started.

+ Developer : NHN | + Price Type : Free

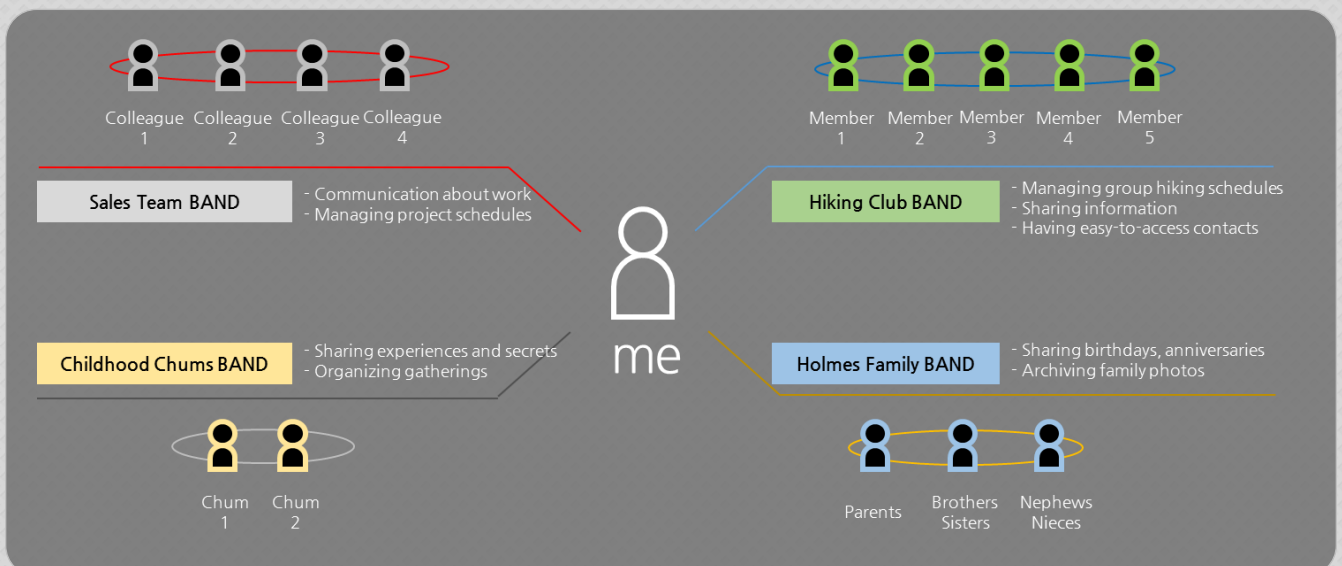

## What LINE BAND is

BAND is the optimized service for private group communication which tightens the bond between you and your friends.

## What LINE BAND is

From classmates, teammates, co-workers, alumni, club members to family, lovers, and close buddies. You can connect with each group through each BAND!

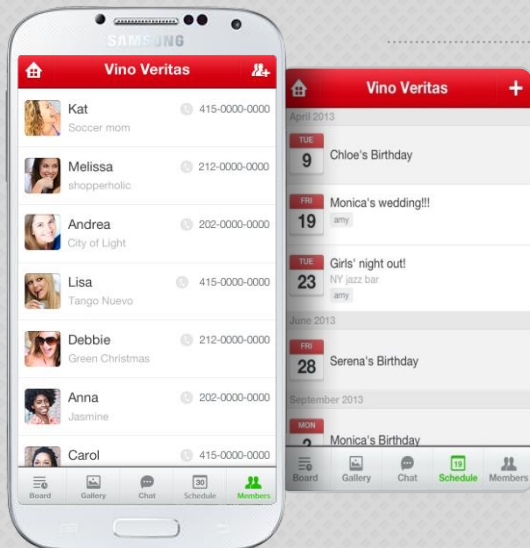

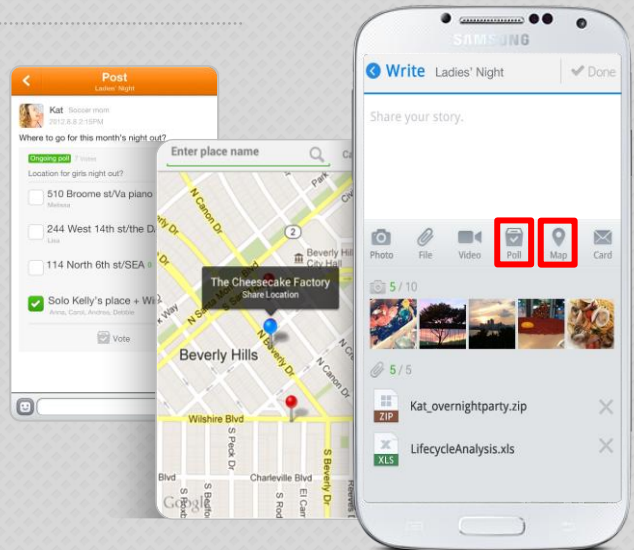

## Features

*Share moments with various communication tools*

- Board
  - Share your private stories, from trifles to important events and photos/videos, within each group
- Gallery
  - Keep your photos well-organized by creating albums
  - Leave a message on each photo and album
- Chat
  - Have a real-time group chat with members using emoji and LINE stickers

*Plan offline gatherings with ease!*

- Poll
  - Choose the right date and place by conducting a Poll! No more scrolling through past messages to figure out everyone's preferences
- Map
  - Attach a location so that group members can easily figure out where to hang out.

*Share member's phone numbers and events*

- Members
  - Find member's phone numbers and directly save them in the phone. No need to send contact list by mail and side-load it to the phone
  - Invite new BAND members by SMS, LINE, facebook, and Kakao Talk
- Schedule
  - Share important date and schedule with BAND members (e.g., birthday, anniversary, meeting date)

Cover Image

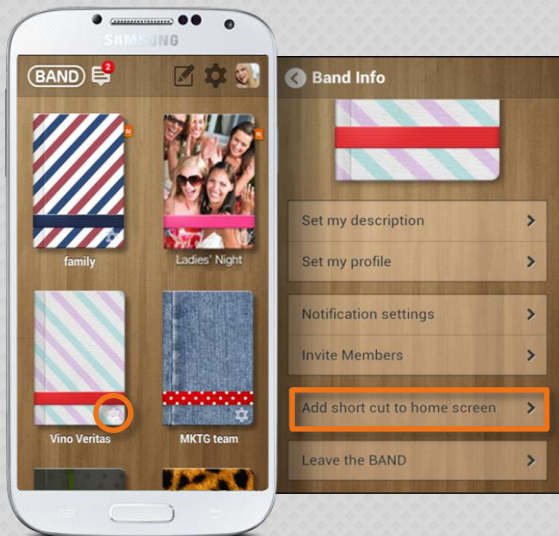

Ribbon

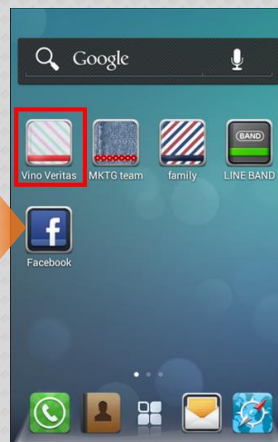

### Customize cover right for each BAND

- Design the cover depending your BAND taste
  - BAND creator can edit BAND cover image and ribbon colors depending on a characteristic and a theme of the BAND
  - Select the right BAND cover from several suggested images or from phone gallery

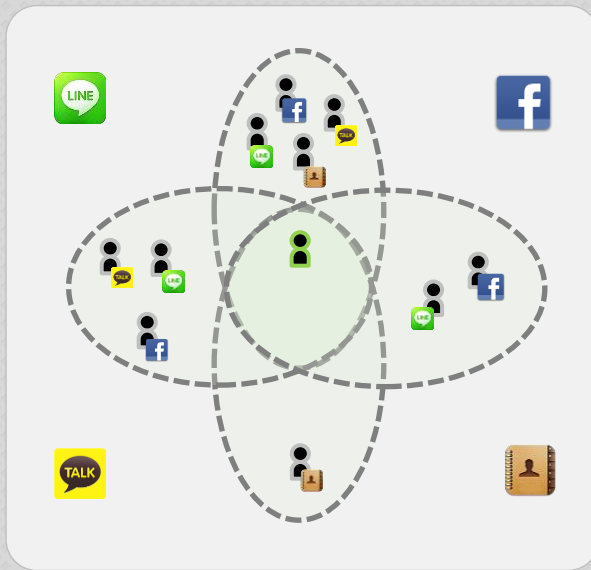

### Direct access to one of BANDs from home screen

Add short cut to home screen.  
BAND cover is created in the form of app icon

You can directly access to  
one of BANDs

### Cross-social 'Group network'

- Make a bond with friends from different social networks
  - Your close friends may use different social services or none of them. You can invite them into one BAND
  - Now Supports invitations through LINE, facebook, KakaoTalk, and mobile contacts and plan to add more sources depending on the country

## Value Propositions

*BAND tightens offline relationships among 'real life' friends, not only-online acquaintances*

### 1. Building more intimate relationships thru private group communication

- One BAND is only for one specific group. Users can create or join multiple BANDs to enjoy the separate communication by group.
- Group members can be closely connected with one another, sharing private memories of themselves.

### 2. Organizing get-togethers/meet-ups with ease

- If you are group organizer, you can easily arrange meet-ups with members by using communication tools (Poll, Group Chat, Map, and Group Calendar)

### 3. Archiving memories easily and safely

- BAND is the safe and communal archive of people who have common experiences and are ready to enjoy their precious memories together. (Photos, Videos). No worries of losing or busting mobile phones. All the contents will be kept safely in the BAND.
